Hello my friends -

Just wanted you all to know - my car is finally fixed. State Farm's inspector got involved - after a couple of weeks of back and forth - - the auto body shop took the car to Dodge's 'after market installation shop' - and THEY repaired the auto lock system. I received the reimbursement check for the rental. Everything is working.

THE END.

Thank you all for your patience, advice and expertise it was good to know I could reach out to you.

Donna, Mary - you are the best!

Richard - be extra nice to them!

Anna Morrone
